GORTITE® FIRE HOSE BED COVERS

NFPA COMPLIANT WALK-ON SURFACE

Hose bed covers are made from stainless steel, reinforced with aluminum extrusions to support 250 lbs. per 24-inch section. They retract into a scroll take-up, with no roller or motor required.

Features/Benefits:

- Prevents fire hoses from falling out of storage compartment
- NFPA compliant walk-on surface/continuous corrosion resistant stainless steel, with a non-skid paint surface
- Easy to open/close: fire hose bed covers roll up manually within a scroll take-up; no spring loaded roller or motorized drive required
